FIRST ON THE CONTINENT.
The first printing press on the North American continent is said to have been set up in the City of Mexico by Antonio de Mendosa, Spanish viceroy, who came over in 1523. The printer was Johannes Paulus Brixianensis, an Italian.

How to Cure Rheumatism
Prominent Doctor's Best Prescription Easily Mixed at Home.

This simple and harmless formula has worked wonders for all who have tried it quickly curing chronic and acute rheumatism and backache. From your drugist get one ounce of Toris compound (the original sealed package) and one ounce of syrup of Sarsaparilla compound. Take these two ingredients home and put them in a half pint of good whiskey. Shake the bottle and take a tablespoonful before each meal and at bed-time. Good results come after the first few doses. If your drugist does not have Toris compound in stock he will get it for you in a few hours from his wholesale house. Don't be influenced to take a patent medicine instead of this. Insist on having the genuine Toris compound in the original, one-ounce, sealed, yellow package. This was published here last winter and hundreds of the worst cases were cured by it in a short time.

ence of Orozco in the field is verified by advices received by the Mexican secret service.

From the direction pursued by Gen. Orozco, he will strike the Mexican Central railway just north of the City of Chihuahua, the state capital. He then will be in a position to cooperate with the various rebel groups operating in Chihuahua state about June.

Assurance that Orozco remains in the field is expected with encouragement greatly the rebels under arms along the border. Treatment by an American physician has so far improved the rebel leader's rheumatic condition that he could leave his camp in the Burro mountains below Eagle Pass and again conduct active service against federal troops.

HABEAS CORPUS CASE FOR OROZCO STARTS

Aged Rebel Colonel and Gen. De la Puente Are Taken to Austin.

Where They Seek Release.

Austin, Tex., Dec. 4.—Involving the question of whether or not the federal government may order the detention of individuals without warrant by the military to prevent the violation of the neutrality law, the habeas corpus case for Gen. Pascual Orozco, 57, and Gen. David De la Puente, alleged Mexican rebel leaders, are held at Fort Sam Houston, are seeking release, was begun here today before Judge Macoy, of the federal district court.

It develops that the test of the president's power on this line has been brought out after careful consideration of the question at cabinet meetings. The government contends that section 14, of the criminal code, which authorizes the president to use the army to prevent violation of the neutrality law, carries with it authority to order the detention of individuals, even when sufficient facts are not at hand to justify swearing out warrants for their arrest by civil authorities.

The prisoners were brought here today under military guard. The question will reach the United States supreme court.

Counsel for Orozco denied that the president had any right to order the arrest of anyone except under due process of law and said he would show the first time that the Mexican president has ever tried to exercise such discretion.

United States district attorney Boynton admitted that there is not sufficient ground on which to base a charge against the prisoners, but that they were held by the military authorities with the hope of turning them over to civil authorities at the time this would be done was indefinite.

INDIANS BAD IN STATE OF OAXACA

Mexico City, Mex., Dec. 3.—The government, instead of retiring the federal troops in the state of Oaxaca, probably will strengthen them in consequence of the renewed activity of Indians. Five villages, the inhabitants of which were supposed to favor the federalists, have been destroyed by Indians. The villages were in the mountains northeast of the city of Oaxaca and near the Veracruz boundary. Ceitlahuaca, a more important town 60 miles northwest of Oaxaca, has been burned and a few of the local officials killed.

The governor of Oaxaca has asked for reinforcements on account of Indian activity, and thousands of soldiers who have been engaged in the Chihuahua campaign are expected here today.

SALAZAR REPORTED IN SONORA STATE

Douglas, Ariz., Dec. 3.—Part of Salazar's rebel force is reported to be at San Luis Potosi, and the federal general force is now en route there, numbering 135. It is believed they will meet.

WOMAN CLOSING HIGHWAY.

THIRTEEN TO SHOOT MEN.

Colorado Springs, Colo., Dec. 3.—Acting under the advice, she says, of Almighty God, Emma M. M. Mottander, Swedish-American housewife, of Colorado Springs, has closed the Lincoln highway, three and one-half miles east of Ramah, by stretching wire across it, and has notified the county commissioners that she will shoot the first man who tries to open it.

The commissioners are determined to have the right of way and have instructed the county attorney to take the necessary legal action to reopen the road.

NINETEEN STATE GOVERNORS AT RICHMOND CONFERENCE

Richmond, Va., Dec. 3.—Perpetuation of the governors' conference as a permanent organization was the chief aim of the meeting, which was held in Richmond to obtain rank as a force in molding public opinion and shaping public policy.

The conference, which was held in Montana, today, in response to addresses welcoming 19 state executives to the fifth annual gathering, which opened here.

"Much of actual value has been accomplished in previous conferences," Gov. Norris said, "but the conferences have not been the potent factor they should have been."

ARMORED TRAIN IS COMING BACK

The troop train bearing the 23rd battalion and guarded by "El Nino," the big gunboat cannon, continuing on its way in circles between Chihuahua city and Juarez. The official report says that the railway cruiser has arrived at Chihuahua over the North Western railway, after leaving Juarez Sunday morning, and has again departed north over the Central line, and is expected to arrive again at Juarez within three or four days.

It is denied officially that any troops were landed at Guzman to march overland to the assistance of Gen. Blanco. It is said that Blanco has two mortars defending Acapulco, and that there is little fear that Salazar's rebels will attack the town.

NO MORE FUNDS FOR THE MEXICAN WOUNDED.

Lack of funds is depriving federal and rebel wounded at Columbus, N. M., from proper care, says a dispatch from Gen. E. Z. Steever at Fort Bliss. Nearly all of \$300 sent by the national Red Cross society for the treatment of 24 federal wounded and \$300 sent by the rebel general Salazar for the care of 24 rebel wounded has been expended.

Some of the wounded who were sent to the United States after the battle of Palomares need hospital care and if funds are forthcoming it is planned to bring them here for treatment.

After the federal wounded at Columbus have been cared for by American funds, the Mexican federal government at last has offered to take care of the Mexican wounded.

Willing to Do His Share.

Senator Culberson has received the following letter:

"Dear Sir: Since the Democrats have been elevated to full control of the government, I assume the party is ready to enter upon full government functions, and I am willing to go to the limit to serve the party. If you want, I will be willing to accept a position as assistant secretary of the treasury, or something like that. Waiting to hear from you, etc."

Nearly every other male citizen of the same town is willing to make the same sacrifice.

Willing to Be Ambassador.

Senator Bailey received the following letter: "I have thought over the matter at some length, and would not mind being appointed to some nice ambassadorship in a nearby country. Kindly name me if it is all right."

W. B. Jayne, secretary to Bailey, notified the applicant that, while the salary of an ambassador was very good, the incumbent usually found it necessary to contribute from his own pocket an amount equal to the salary in order to keep up appearances.

Eighteen Jobs; 1100 Applicants.

Texas was one of the original and most important states in the primaries, and that is why, probably, there are so many patriots in that state. Representative Henry, who represents Waco and other cities in central Texas, will have power of recommending the appointment of 18 postmasters, and he has received 100 letters of application.

Morris Sheppard, the newly elected senator from Texas, has been compelled to put one secretary, as assistant, and four stenographers to work answering the applications for jobs that have come from his constituents who are willing to serve the country and break a leg trying to do it.

Spencer Clark is keeping four stenographers busy dictating replies to applications for positions under the incoming administration. The speaker's clerks say that during the brief time since his return to Washington he has answered several thousand such letters.

To Fight Taft Nominee.

President Taft sent more than 200 "cease appointing" orders to the governor and immediately indications of movement among some of the Democratic senators to prevent their confirmation became evident. Senator Gurnea, it was said, would have the active support of several colleagues in heading the movement. The name of Richard Sloan, former governor of Arizona, is to be a federal judge from that state, is to be in the list.

The campaign is directed especially against nomination which, it is claimed, have been postponed from time to time, thus bringing the new terms close at hand. Democratic senators claim that the president already has deprived the Democrats of the privilege of appointing 50,000 postmasters by placing them within the civil service law by a single order.

to serve the country or die in the attempt, and the result is that some of the leaders of congress are bordering on prostration.

Mr. Smith's Big Job.

Representative Smith, of the El Paso district, will have it in his power to recommend the appointment of 37 postmasters. For the 37 positions he has on file exactly 1094 applications. This means that there will be 1057 disappointed citizens who will not be boasting that they are lifelong Democrats shortly after March 4.

Representative Smith has received a burning letter from one of his constituents, saying:

"Dear Representative: I think that it is a good time for Democrats to be loyal to their party, even though it involves some personal sacrifice. I have a good business, and am in good circumstances, but I am willing to go to the limit to serve the party. If you want, I will be willing to accept a position as assistant secretary of the treasury, or something like that. Waiting to hear from you, etc."

Cure Headache, Constipation, Biliousness or Sick Stomach While You Sleep.

It is more necessary than you keep your bowels. Liver to Stomach, pure and fresh than it is to keep the bowels and drainage of a large city free from obstruction.

Are you keeping clean inside with Cascarets—or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food from the liver and carry out of the system the constipated waste matter and poison in the intestines and bowels.

No odds how badly and upset you feel, a Cascaret tonight will straighten you out by morning. They work while you sleep. A 10-cent box from your drugist will keep your head clear, stomach sweet and your liver and bowels regular for months. Don't forget the children—their little insides need a good, gentle cleansing, too—Adv.
